In Witney the two schools have similar timetables to allow a wider choice of subjects. This joint grid should allow you to choose the courses most suited to your abilities and future plans.

+ Students will need to take this subject in both boxes.

(s) Teaching shared between Wood Green and The Henry Box Schools.

You may only choose one subject from each box, as subjects are taught at the same time. It is possible that changes could be made in the light of student demand. Courses will run if there are sufficient numbers enrolled; please ask for guidance.

Combined Pathway: Students may choose two A level subjects and one BTEC at Witney College
