5th September 2016

Dear Parent/Carer

Human Papilloma Virus vaccination programme

A team of School Health Nurses will be attending Wood Green School to administer the HPV (Human Papilloma Virus) vaccination to all female students in Year 8.

This is a two part immunisation, given at least 6 months apart and protects against the most common causes of cervical cancer.

The dates for this year are as follows:

Dose 1: **Thursday 22th September 2016**

Dose 2: **Thursday 4th May 2017**

Both immunisations need to be given to achieve the best protection. If your daughter is unable to receive her immunisation on the dates above we will arrange to catch her up in school at a later date, you do not need to do anything.

Enclosed is a leaflet with information on the vaccine and a consent form. Please discuss and fill in the form with your daughter. **Every student should return the form to school as soon as possible and before Thursday 15th September 2016.**

If you or your daughter have any concerns or wish to discuss this important immunisation with a school health nurse, please contact us on 07584385946. Further information is also available at www.nhs.uk/hpv

Yours faithfully

Annemarie Garay
