

Student instructions on how to upload work to Assignments

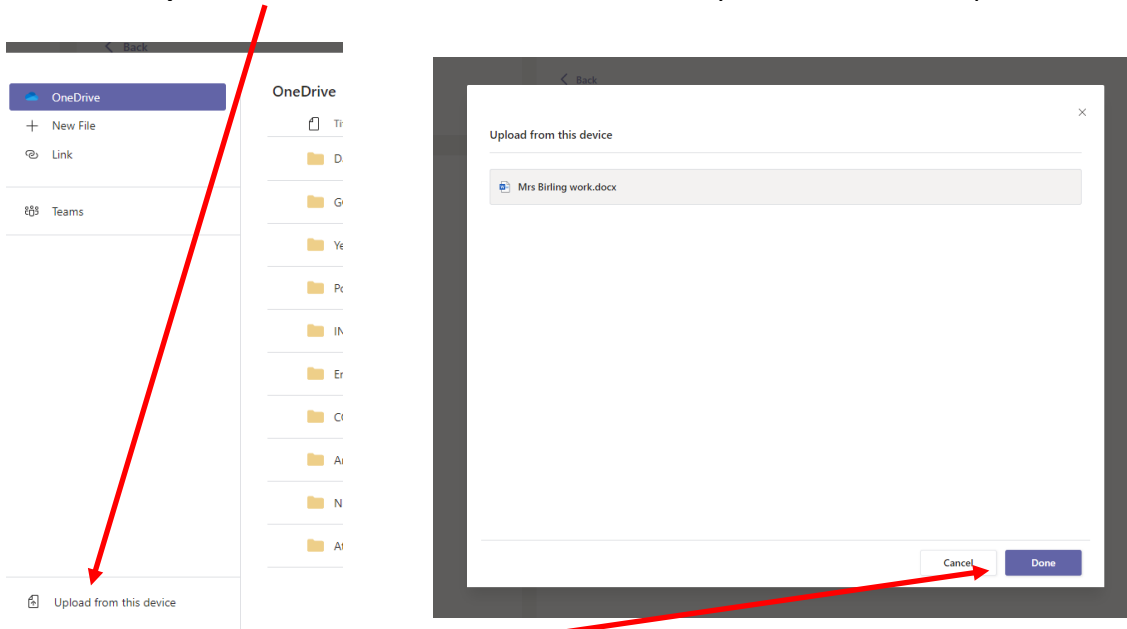

Go to **Assignments** in the class Team you have to submit work in.

Select **View Assignment** on the piece of work you need to hand in.

Then select **Add work**.

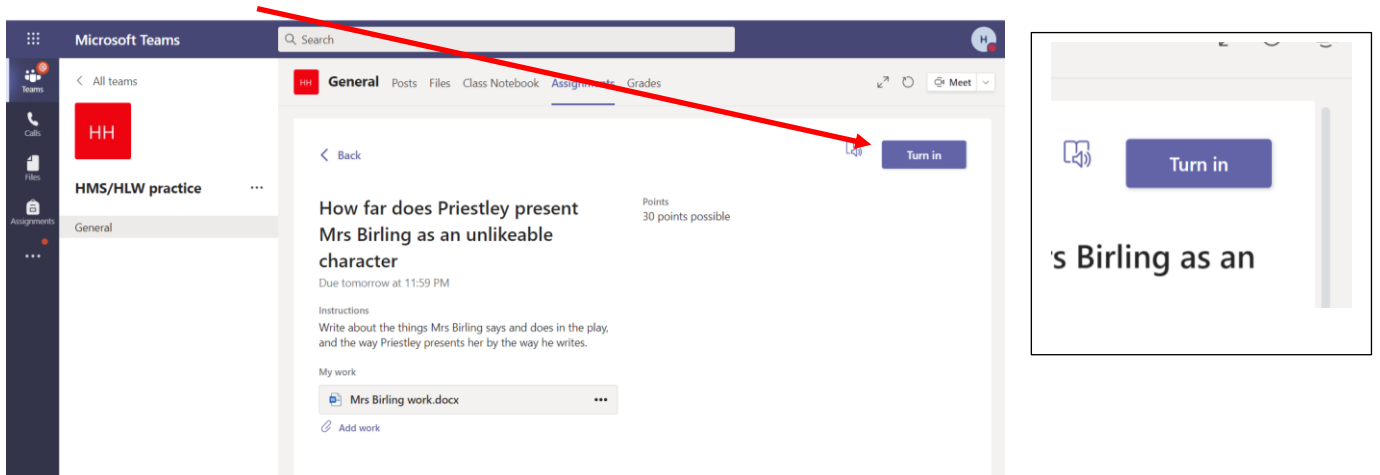

Then select **Upload from this device** and find wherever you have saved the picture.

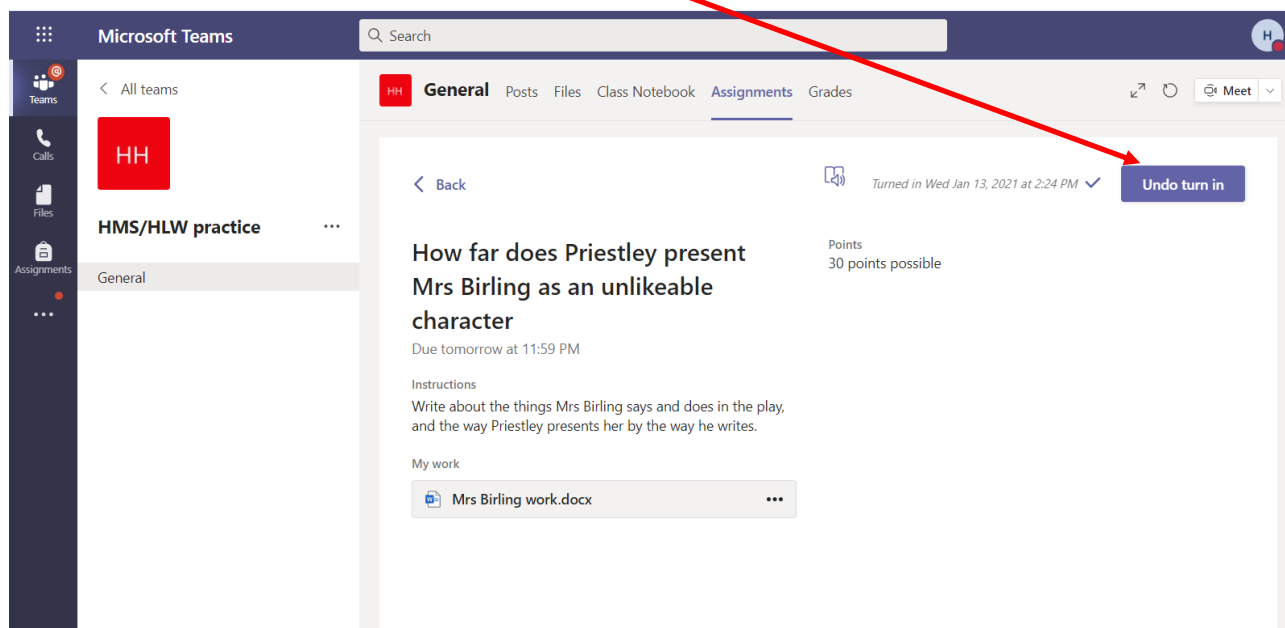

Select that file and then click on **Done**.

Now click on **Turn in** in the top right of your screen. You will have uploaded your work.

If you have made a mistake and uploaded the wrong piece of work, you can change it by clicking on the button in the top right of the screen that says **Undo turn in**.

When your teacher gives you feedback on the work, it will appear here, next to the work you have turned in.
